

Children's Center

Big World-Little Hands Art Exploration

This class focuses on the process of creativity. Through a series of fun, tactile, hands-on projects the children will become aware of their senses as they explore color, texture and even taste. Making finger paints, home-made *play doh* or just getting sticky fingers becomes the main part of the art experience rather than the finished product.

The instructor, Wilma Sanchez, studied at *Altos de Chavon School of Design* and received her BFA in Illustration at *Parson's School of Design* in New York City.

Wilma founded *Racoon Illustration* and started her own independent line of Greeting Cards, *Heavenly Greetings*. Her designs have been manufactured in a line of baby products, furniture, scrap-booking and books.

Recently, Wilma has volunteered her time for art related activities at Bedford Central School District. She has created holiday projects with the Special ED classes and holds workshops for children in her Bedford Hills home studio.
